" Feminism creates prejudices under the guise of fighting them. " (Alessandra Nucci)
" Femicide, animalism, homophobia, patriarchy, the threat of fascism " (Out of the Matrix, 2025)

" Feminism is a mass plagiarism which made people slaves, blind and ignorant. It led women to no longer be women (care), men to no longer be men (guide), he denatured them and made them unhappy. " (Paternita.info)

FEMINISM 2025: APARTHEID OF THE NEW MILLENNIUM

The key word describing the origin and essence of Feminism: **PSYCHOLOGISM**. These are exactly the 3 STEPS of mental decay in modern libertarian Societies:

Psychologism (*reverence of psychology at the expense of other disciplines*) which brings **Subjectivism** (*my inner feeling is the objective and indisputable truth*) which brings **Narcissism** (*egocentrism, alienation we suffer today*).

Psychology as it is used today **is a dead end**.

It convinces us that Subjective Reality is the only thing that exists, to the detriment of Objective Reality. We believe our Subjective Reality, a collection of perceptions and beliefs, is the TRUE Reality. Thus we close ourselves in our shell and clump of thoughts, completely **alienating** ourselves from TRUE Reality which is fundamentally made up of Objective Reality, facts.

In today's society this translates into **pathological asociality, narcissism and selfishness**, replacement of collective rights with individual rights only (this means the disappearance of all solid and **enduring forms of aggregation**), and the spread of depression we know the main antidote is relationships, philanthropy and sociality.

Therefore, mere psychology, if not accompanied by ethics - **morality, law, philosophy, science** - has no value.

THE FATHERLESS SOCIETY

Philosophers and historians point to the **Lack of Fathers and Healthy Male role models as the root of this decline**. There are two main causes:

- 100 million men died during world wars, **200 million men became disabled** (mainly PTSD, for example: 50.000 american soldiers died during the Vietnam war, 60.000 committed suicide when they came back home).
- The industrial revolution bringing men into factories, mines, toxic environments, far from home and from **their natural role of father and husband**.

THE SEX FACTORY: LOVE IN THE TIME OF FEMINISM

When I was a Child I was told that prostitution, selling the body, the woman as an object, was something promoted and pushed by men. Now I know it wasn't true.

The Sex Working currently generates a turnover of approximately 20 BILLION euros/dollars annually in Italy. In Europe there are an estimated of 2 million females Sex Workers.

Girls, women, and OnlyFansers of any ages, stating this: "**Why should I work 8 hours a day** for a €1,500 salary, when I can earn €15,000-€20,000 working two days a week?"
